(Reviewer's form)

Title of reviewed article

.....
.....

01	Do the issues being presented in the paper constitute a significant contribution to science?	Yes / Partly / No
02	Does the issue presented in the paper have practical applications? Will it also be of interest beyond the community of geographers?	Yes / Partly / No
03	Does the paper bring new ideas to the existing literature on the subject?	Yes /Partly / No
04	Is the paper an original study (i.e., is it more than a summary of the existing literature in the field)?	Yes / Partly / No
05	Is the aim of article clearly specified and realized?	Yes /Partly / No
06	Does the paper's title match its content?	Yes / Partly / No
07	Is the research topic presented clearly?	Yes / Partly / No
08	Does the article have a logical layout?	Yes / Partly / No
09	Is the article excessively long?	Yes / Partly / No
10	Is the subject bibliography sufficient?	Yes / Partly / No
11	Is the language of article correct?	Yes / Partly / No
12	Do the paper's conclusions follow logically from the development of the argument?	Yes / Partly / No
13	Is the text adequately illustrated (tables, figures)?	Yes/ Illustrations insufficient / Illustrations absent
14	Are there any illustrations which are unnecessary?	

15	Suggested corrections (changes and corrections can also be noted in the text itself)
----	---

CONCLUSIONS: (please outline the proper one);

The article may be published in the version which the author has submitted, with possible minor changes.

The article may be published after the introduction of corrections which have been suggested by the reviewer.

The article is not suitable for publication.
